Lexon Terms of Service

Effective date: 20 October 2026 **Publisher:** WGR, South Africa **Contact:** Lexon.Help@gmail.com

These Terms of Service (the "Terms") are the agreement between you and WGR ("we", "us") for your use of Lexon, a Windows desktop application for text expansion and AI-powered writing assistance (the "App"). By installing or using the App, you agree to these Terms. If you do not agree, do not install or use the App.

1. What Lexon does

Lexon helps you write on Windows. It can suggest words as you type, expand snippets you define, check grammar, and rewrite text you select. To do this it runs in the background and observes your keyboard input and the text of the field you are typing in. Some features can send text to an AI provider that you choose (see Section 5).

2. Licence

We grant you a personal, non-exclusive, non-transferable, revocable licence to install and use the App on Windows devices that you own or control, for your own lawful purposes, subject to these Terms.

You may not:

- copy, modify, or distribute the App, or create derivative works from it, except as the law allows despite this restriction;
- reverse engineer, decompile, or disassemble the App, except to the extent the law permits despite this restriction;
- sell, rent, lease, or sublicense the App;
- remove or alter any copyright, trademark, or other proprietary notices;
- use the App to break the law, to infringe the rights of others, or to bypass the security or access controls of any system.

3. Microsoft Store

If you obtained the App through the Microsoft Store, Microsoft is not a party to these Terms. Microsoft has no obligation to provide support or maintenance for the App. Your purchase, download, and payment (if any) are handled by Microsoft under Microsoft's own terms.

4. Permissions and system access

To work, the App uses system-level Windows features, including a global keyboard hook, reading the text of the focused control, and simulating keystrokes to insert text. You understand and agree that the App needs this access to function.

The App includes protections that are intended to keep it from acting in password fields and in applications you have blocked. These protections are a safeguard, not a guarantee. You are responsible for blocking any application in which you do not want the App to operate, and you can disable the App at any time from its controls or by uninstalling it.

You are responsible for making sure your use of the App is allowed where you use it, for example under your employer's, school's, or exam provider's rules.

5. AI features and third-party providers

The App's AI features work by sending text to a third-party AI provider that you select and connect, using your own account or API key. Lexon can also work with a locally run model, in which case your text stays on your device. The App also offers a Local-only mode that turns cloud AI features off.

When you use a cloud provider:

- your text is processed by that provider under the provider's own terms and privacy policy, not ours;
- you are responsible for the provider's fees, usage limits, and terms, and for keeping your API key secure;
- we do not control the provider and are not responsible for its availability, pricing, or conduct.

AI output can be wrong, incomplete, inappropriate, or out of date. You are responsible for reviewing anything the App suggests or rewrites before you use it. Do not rely on the App for legal, medical, financial, or other professional advice.

6. Your content and privacy

You keep all rights in the text you write and in the content you create using the App. We do not claim ownership of it. How the App handles your data is described in our Privacy Policy, which forms part of these Terms.

7. Intellectual property

The App, including its code, design, name, and branding, belongs to WGR and its licensors and is protected by copyright and other laws. These Terms give you a licence to use the App, not ownership of it. Open-source components included in the App remain under their own licences.

8. Updates and changes to the App

We may update, change, or discontinue features of the App from time to time. Updates delivered through the Microsoft Store are subject to these Terms. We do not guarantee that the App will always be available or free of errors.

9. Prices

Any price for the App is shown in its Microsoft Store listing, and any payment is processed by Microsoft. Fees charged by third-party AI providers are separate and are your responsibility.

10. Termination

You may stop using the App at any time by uninstalling it. We may suspend or end your licence if you materially breach these Terms. When your licence ends, you must stop using the App and uninstall it. Sections that by their nature should continue (including Sections 7, 11, 12, and 13) continue after termination.

11. Disclaimer of warranties

To the fullest extent permitted by law, the App is provided "as is" and "as available", without warranties of any kind, express or implied, including any warranty of fitness for a particular purpose, accuracy, or uninterrupted or error-free operation. We do not warrant

that the App's suggestions, corrections, or rewrites will be accurate or suitable for your purpose.

12. Limitation of liability

To the fullest extent permitted by law, we are not liable for any indirect, incidental, special, or consequential loss, or for loss of data, profits, or goodwill, arising from your use of or inability to use the App, including loss caused by incorrect text insertion, AI output, or a third-party provider. Where liability cannot be excluded, it is limited to the amount you paid for the App in the 12 months before the claim arose, or ZAR 100 if you paid nothing.

Nothing in these Terms excludes or limits any right or liability that cannot be excluded or limited under applicable law, including your rights under the South African Consumer Protection Act 68 of 2008 where it applies to you.

13. Governing law

These Terms are governed by the laws of the Republic of South Africa. Subject to any mandatory consumer rights you have under the law of the place where you live, the courts of South Africa have jurisdiction over any dispute arising from these Terms or the App.

14. Changes to these Terms

We may update these Terms from time to time. The effective date at the top shows when they were last changed. If we make a material change, we will publish the updated Terms at the same public location and, where appropriate, tell you in the App or the Microsoft Store listing. Continued use of the App after a change means you accept the updated Terms.

15. Contact

For questions about these Terms, contact us at **Lexon.Help@gmail.com**.
